

[1]14.53μm

The image shows a grayscale micrograph of a material surface, likely a metal, with a series of parallel, slightly wavy lines running diagonally from the top left to the bottom right. These lines represent a surface texture or grain structure. In the lower right quadrant, there is a scale bar consisting of a solid red line with arrows at both ends, flanked by dashed red lines. Below the solid line are two red 'x' marks, each connected to the solid line by a vertical dashed cyan line. A white rectangular label with the text '[1]14.53μm' is positioned at the right end of the scale bar.
